390 Alternative 5. Give the land back to Public Domain	I believe we should use Alternative 5 which would return our land back to our public domain and let the military swap for some other place possibly Mexico or the salt flats AREA. I am a native New Mexican and have paid taxes for many years and have watched as money hungry people have sold New Mexico off for horrible uses such as nuclear waste dumps atomic bomb tests military bombings & artillery and now money hungry people will take blood money from German troops to bomb more of our beautiful Mts and wildlife and once again will take away the freedoms our fathers, brothers, uncles, & cousins died for such as our ranches & rights to our public domain. I watched my family's heartbreak to have their ranches

	TAKEN AND THEY WERE REMOVED FROM THEIR HOMES WITH MACHINE GUNS + TROOPS (American) Many of them are now dead from cancer. OF course the army promised them they would return their ranches in good shape but that was all lies. We even had to have a military escort to even return to a ranch to obtain a rock from the homeplace for a headstone of yet another cancer victim who spent his life trying to get his ranch back. McGregor Range was to be returned to the public domain for the publics use. there are plenty of other areas that are barren where the army + Air force can play war games. If we are not fighting to protect our own citizens freedoms + rights what are we fighting for? the damages being done to New Mexico need to stop. the last meeting I attended there was a fellow (Ray Quick) who stated that "the army don't care" and he is absolutely right. the military's job is to kill people and destroy property and the military doesn't CARE ABOUT NEW MEXICOS ranchers citizens or their property (except to confiscate it). Military doesn't care about our history archaeology, our beautiful mts. which used to be a peaceful quiet area, or our wildlife, or livestock or apparently not our Tourist industry. We need to stop the noise ~~and~~ air pollution, water pollution + ground pollution. As to training German troops they did well enough at Killing to have slaughtered 6 million innocent Jewish children, babies, women + men aged or young during previous wars so it seems unlikely they need American help to practise Killing Any money we accept as Americans to train them is just blood money for these 6 million human beings. Please give our public domain back to our citizens + honor our New Mexicans with freedom to enjoy our beautiful state before the military destroys any more of it. Find a location such as salt flats or desert wasteland instead of our pristine areas.
