This link will connect you to the National Weather Service Hurricane Center

This area has local weather climatology information that includes monthly Hi/Lo temperatures and average snow fall for winter months

This area has conversion tools to convert temperatures from Fahrenheit to Celsius and to calculate wind chill (during the winter) or heat index (during the summer)

# This is the Ft. Bliss weather (wx) page in its raw format and offline

## “Briefings”

This area will have a variety of wx briefs. Ranging from Summer/Winter weather impact briefs to Solar/Lunar data. We will also post forecast studies of previously weather events for the local area.

## “DoD Weather”

These links will connect you to several Military weather websites.

## “Civilian Weather”

These links will connect you to several Civilian weather websites.

## “Unit Info”

This area contains Point of Contacts to include WX shop numbers

# Weather Zones

## Zone Boundaries:

Zone 1: CR7541 to  
CR9641 to CR9628 to  
CR8622 to CR7522 to  
CR6930 to CR7541

Zone 2: CR8662 to  
DR2362 to DR1141 to  
CR7541 to CR8662

Zone 3: DR0400 to  
DR3792 to DR4081 to  
DR2362 to CR8662 to  
DR0400

Zone 4: DR0718 to  
DR2017 to DR5199 to  
DR4081 to DR3792 to  
DR0400 to DR0718

Zone 1: CR5179 to  
CR7079 to CR7586 to  
CR9386 to CR9781 to  
CR8050 to CR5150 to  
CR5179

To assist the weather squadron, as well as to help reduce the amount of down time on ranges as it is currently reported, we will dissect the training complex into five areas for severe weather reports so as not to effect those areas that are on the extreme North or South or East Or West of where the weather is.

This will be used to help the weather squadron publish the following:

- Lightning Warnings
- Thunderstorm Warnings
- High Wind Warnings
